

ONLINE ACCESS TO RECORDS REQUEST

In accordance with the UK General Data Protection Regulation (UK GDPR)

Guidance notes – please read before completing this form:

Patients with online accounts, such as through the NHS App, should be able to read new (prospective) entries in their health record. This form applies to past (retrospective) record entries and historic data.

For proxy access, i.e., access by a third-party could be established for convenience, or for when a patient lacks capacity. In all instances the best interest of the patient must be confirmed, and appropriate forms of identity confirmed. A proxy agreement could either be an informal arrangement, or more formal via a lasting power of attorney (LPA).

Should proxy access for a child aged between 11-13 have been granted, then this should be reviewed. When a child reaches aged 13, then this should be seen as the point to review the relevance of any ongoing proxy access

It should be noted that whilst there is legally no cut off when a child may be considered to have ‘sufficient understanding and intelligence to enable him/her to understand fully what is proposed’ (known as Gillick Competence), it is good practice to implement standard review dates in line with a young person’s evolving maturity and ability to consent to proxy access

Even if a child aged 13 or over may be competent to give consent for him/herself, they may still wish a parent to countersign.

For further guidance, refer to Section 7.2 of NHS England guidance titled [DAPB3051: Proxy](#).
